Description

Players take on the role of the president or prime minister of a democratic nation and try to govern the country. The player must introduce and alter policies in different areas (such as tax, economy, welfare, etc.). Each policy has an effect on the happiness of various voter groups, as well as affecting factors such as crime and air quality. The player has to deal with "situations", which are typically problems such as petrol protests or homelessness, and also has to make decisions on dilemmas that arise each turn.
