Valuing cultural diversity

Description

"If you love me don't die" is an interactive story for smartphones and tablets that allows you to take part in the journey of refugees from Syria who are looking for a way to reach Europe. "If you love me, do not die" is an Arabic phrase that is exchanged as a greeting with loved ones when you part. In the Syrian city in which the protagonists live the situation has become unbearable. Nour, who lost his twin sister under the bombs, leaves. The app asks you to make choices between the phrases or emoticons proposed, thus conditioning Nour's journey and pushing her towards one of the 19 different endings imagined by the developers.
